Eastern Glove & Safety FR Disposable Coveralls are the perfect choice for applications where Flame Resistant clothing is required. FR Coveralls are designed to prolong the life of primary FR garments by providing a secondary level of protection against sparks, dirt and grime. Chemically treated to meet the flame resistance requirements of NFPA 701, Eastern Glove & Safety FR Coveralls are ideal for refineries, mining, utilities, welding, plant visitors, laboratories, steel mills, grinding and foundries.

Flammability	NFPA 701
NFPA 701 (Mass Loss)	2.6%
Tensile Strength (D5034)	MD: 34.0 lbs., CD: 26.0 lbs.

SMS Coveralls are made with durable, yet breathable fabric. SMS is composed of three layers of Polypropylene material. One layer of Melt blown Polypropylene is sandwiched between two layers of Spunbonded Polypropylene. This unique fabric configuration gives our SMS Coveralls outstanding abrasion resistance and protection from non-hazardous liquids and particulates.
